Dear customer,

Given the current market conditions, we know that price is more important than ever to you and your business. However, we have recently been advised by our suppliers that prices will be increasing for 2020. These are the price increases across some of the key products you have purchased previously:

Product Category	Price increase	Live date
Imported Carcassing	Up to 11.5%	September 1st 2020

Why we're raising our prices. Each year the manufacturers of building materials increase their prices due to the ever increasing costs in raw materials, fuel, logistics and employment costs. The price increase reflects the increase in demand and the shortfall in supply due to the reduction in log availability. This has also been worsened by the increase in demand from certain countries such as America, reducing the availability in Europe.

How can we work better with you in 2020? Jewson is committed to working closely with our customers to better understand the challenges you face and ensuring we continually improve the products and services you receive from us.

If you'd like to talk to us about anything we've included within this letter, please get in touch with your local branch.

Thank you for being a valuable customer of Jewson throughout 2020.

Yours Sincerely,
Jewson
